

Telecamere professionali

CCD

La telecamera è il componente fondamentale di un sistema di TVCC.

The camera is the fundamental component inside of a CCTV system.

Essa deve essere scelta per rispondere alle reali esigenze dell'impianto, evitando l'utilizzo di telecamere troppo sofisticate ove non siano richieste, o telecamere che non hanno le caratteristiche per poter soddisfare le esigenze di un impianto.

It has to be chosen responding to the real system necessity, avoiding to use sophisticated cameras where is not necessary, or cameras that could not have all the requested technical features that are needed from the system we're going to set up.

TVC30

Telecamera 1/3" CCD Sony b/n 480tvl 230Vca

230Vac 480tvl 1/3" Sony CCD b/w camera

Camera 1/3" CCD b/n Sony 480tvl 230Vca
